Nearest Ten2-Digit NumbersRounding to the Nearest Ten:Number Lines (2 Digit Numbers)Use the numbers lines to round each number to the nearest 10. 2nd and 3rd GradesTask Cards: RoundingNearest TenThese task cards have 2-digit numbers that students can round to the nearest ten. Use these cards for class scavenger hunts, or as math learning centers.2nd and 3rd GradesScoot Game: Rounding (Nearest 10)In this whole-class game, students travel around the classroom to different task cards. Each card has a number on it. Students round the number to the nearest ten.2nd and 3rd GradesNearest Ten(2 and 3-Digit Numbers)Math Riddle: Humpty DumptyWhy did Humpty Dumpty have a great fall? To solve the math riddle, round each of the given numbers to the nearest ten. (Includes 2 and 3-digit numbers.)3rd and 4th Grades Welcome to our Rounding to the nearest 10 worksheets page. Here you will find a wide range of free printable number Worksheets, which will help your child learn to round numbers to the nearest ten. When you are rounding a number to the nearest 10, you are trying to find out which multiple of 10 your number is closest to. The golden rule with rounding is that if a number is exactly halfway between two multiples of 10, you always round up. How to round a number to the nearest 10 Look at the ones digit. If it is less than 5 then round the number down by changing the ones digit to zero; if it is 5 or more then round the number up by adding one on to the tens digit and changing the ones digit to zero. Examples 37 rounds up to 40 because the ones digit is 7. 63 rounds down to 60 because the ones digit is 3. 145 rounds up to 150 because the ones digit is a 5. Here you will find a range of free printable math worksheets to help your child learn to round numbers to the nearest 10. These sheets are carefully graded so that the easier sheets come first and give extra support. The numbers in Sheets 1 to 4 go up to 100. Sheets 5 & 6 go up to 1000. Each sheet comes with a separate printable answer sheet. Using these sheets will help your child to: round numbers to the nearest 10; position numbers to 100 on a number line. All the free Rounding Worksheets in this section support the Elementary Math Benchmarks. These sheets are aimed at kids in 2nd and 3rd Grade. Want to test yourself to see how well you have understood this concept?. Try our NEW quick quiz at the bottom of this page. The rounding numbers worksheets in this section involve rounding numbers to the nearest 100. They are at a more challenging level than those on this page. Take a look at some more of our worksheets similar to these. Here is our rounding challenges collection which will give your child an opportunity to apply their rounding learning. The challenges can be tackled individually or with a partner. Each challenge involves using rounding knowledge and properties of numbers to work out the correct answer. Using these sheets will help your child to: apply their knowledge of rounding to the nearest 10, 100 or 1000; develop their problem solving skills; develop their understanding about place value and properties of numbers. All the rounding challenges support elementary math benchmarks. Rounding Numbers Worksheet Challenges In our Rounding Practice zone, you can practice rounding a range of numbers. You can round numbers to the nearest 10, 100 or even 1000. Want to round numbers to the nearest decimal place, you can do that too! Select the numbers you want to practice with, and print out your results when you have finished. You can also use the practice zone for benchmarking your performance, or using it with a group of children to gauge progress. Here is our generator for generating your own rounding off numbers worksheets. Our generator will create the following worksheets: rounding off to the nearest 10, 100, 1000 or 10000 rounding to the nearest whole, to 1dp, or 2dp, rounding off to 1sf, 2sf or 3sf Rounding Off Numbers Worksheets Below are our selection of Place Value, Ordering and Rounding Worksheets The following worksheets involve different Second Grade place value activities such as counting in hundreds, tens and ones, reading, writing and ordering numbers to Hundreds, and know what number each digit represents. Using these worksheets will help your child to: learn to count by hundreds, tens, fives, twos and ones; learn their place value to Hundreds; order numbers to 100. Number Line Worksheets to 100 Using these sheets will help you to: count on and back in ones to 100; position numbers up to 100 on a number line. Our quizzes have been created using Google Forms. At the end of the quiz, you will get the chance to see your results by clicking 'See Score'. This will take you to a new webpage where your results will be shown. You can print a copy of your results from this page, either as a pdf or as a paper copy. For incorrect responses, we have added some helpful learning points to explain which answer was correct and why. We do not collect any personal data from our quizzes, except in the 'First Name' and 'Group/Class' fields which are both optional and only used for teachers to identify students within their educational setting. We also collect the results from the quizzes which we use to help us to develop our resources and give us insight into future resources to create. For more information on the information we collect, please take a look at our Privacy Policy We would be grateful for any feedback on our quizzes, please let us know using our Contact Us link, or use the Facebook Comments form at the bottom of the page. How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. Page 2 Welcome to our 2 Digit Multiplication Worksheets page. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. Within each section, the sheets are carefully graded with the easiest sheets first. These sheets are aimed at 3rd graders. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. Create your own long or short multiplication worksheets quickly and easily? Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills.
